

SolarMax Energy Systems

0 5MW energy storage price

Overview

What is a 1MWh energy storage system?

The 1MWh Energy Storage System consists of a Battery Pack, a Battery Management System (BMS), and an AC Power Conversion System (PCS). We can tailor-make a peak shaving system in any Kilowatt range above 250 kW per module. For applications over 1MW these units can be paralleled.

Features: Features of the Battery Management System (BMS):.

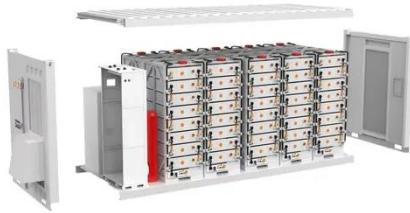

How much does a 1MWh battery energy storage system cost?

To discuss specifications, pricing, and options, please call us at (801) 566-5678. Budgetary Pricing: \$438 per Kilowatt We guarantee best pricing for 1MWh 500V-800V battery energy storage system. Order at Energetech Solar.

How much does a MWh system cost?

MWh (Megawatt-hour) is a measure of energy capacity (how long the system can continue delivering that power output). For example, a 1 MW / 4 MWh BESS has four hours of storage capacity. So, while the system might be \$200,000 per MW, the effective cost can be \$800,000 per MWh if it has four hours duration.
