

SolarMax Energy Systems

15KW grid-connected inverter

Overview

What is a 15kW transformerless grid tie inverter?

15kW transformerless grid tie inverter for three phase on grid solar power system, which converts 200-820V wide DC input voltage to 208V/ 240V/ 380V AC output voltage feed the power into the grid. Grid tied pv inverter with LCD, can set main general parameters. The current THD at rated power and in the sine wave is $\leq 3.5\%$.

What is a Sol-Ark 15kW inverter?

Specifications: The Sol-Ark 15kW has multiple modes, whether you are trying to sell back to the grid or eliminate it as much as possible. This inverter comes with a 200A transfer switch allowing for a large grid passthrough as well as solar. With 3 MPPTs, the Sol-Ark can have up to 15,000W of PV power connected.

How many watts can a Sol-Ark inverter power?

This inverter comes with a 200A transfer switch allowing for a large grid passthrough as well as solar. With 3 MPPTs, the Sol-Ark can have up to 15,000W of PV power connected. With the outdoor rating, it can be installed in most locations.

What are the key features of on-grid inverters?

Key features of such on-grid inverters include maximum power point tracking (MPPT) to optimize the energy harvest from the solar panels, safety mechanisms to ensure compliance with grid regulations, and monitoring systems to track performance and energy production.

What is a hybrid inverter?

The easy to install and high performing hybrid inverter delivers continuous power for grid-tied or off-grid stand-alone solar power generation for homes and light commercial systems with 240Vac output and 48Vdc battery backup

power. WANT A SOLAR PANEL SYSTEM AT THE LOWEST COST?

START SOLAR DESIGN.

What is a grid tied PV inverter with LCD?

Grid tied pv inverter with LCD, can set main general parameters. The current THD at rated power and in the sine wave is $\leq 3.5\%$. Multiple grid-connected inverters can be operated in parallel.
