

SolarMax Energy Systems

16kW PV inverter price

Overview

What is a sunsynk Max 16kw inverter?

The Sunsynk MAX 16kW is a low voltage (48V) hybrid inverter suitable for off-grid, grid support, back-up and self-consumption PV systems. Moreover, the inverter can also be used in both three-phase and single phase parallel applications. The largest single-phase hybrid Inverter on the market.

Can a 16kw PV system be paired with a 3 phase inverter?

A 16kw PV system is usually paired with a 3 phase 16kw inverter, there are also single phase and 3 phase 16kw inverter options. You can choose a grid-tied or off-grid inverter depending on whether you need batteries for the system. Grid connected inverters cannot be used with batteries, while off grid and hybrid inverters can.

How much does a 16kw Solar System cost?

The price of a 16kw solar system is from \$3800 to \$8800, It depends on which option you choose, if it's a grid-tied option without batteries the cost is much lower. If you need batteries as a back-up then off-grid and hybrid are great options with 15kWh, 20kWh, 30kWh or even larger capacity batteries. Max. Battery Quantity in Parallel: 64.

How many kWh can a 16kw solar power system generate?

16kw solar power system kit for school project, home roof, commercial, remote locations, 30 years lifespan. Solar Mounts: Roof and Ground, customized design. The 16kw solar power system can generate between 50kWh and 90kWh of electricity per day, depending on the altitude, latitude, temperature and the angle of mounting of the panels.

What is the battery capacity of a 16kw Solar System?

Generally, 16kw solar kit is equipped with high voltage batteries. Battery capacity ranges from 20kWh to 60kWh, and conventional 48V batteries are

also available. The capacity of the battery is calculated according to the amount of electricity used by the load after 18:00. How much money can I save with a 16kw solar system?

.

Can a solar inverter be used with batteries?

You can choose a grid-tied or off-grid inverter depending on whether you need batteries for the system. Grid connected inverters cannot be used with batteries, while off grid and hybrid inverters can. Generally, 16kw solar kit is equipped with high voltage batteries.

16kW PV inverter price

SunSynk 16kW Hybrid Inverter

The new Sunsynk 16kW Hybrid Inverter is the most powerful low-voltage inverter in the world, achieving a maximum output power of 16kW and a battery charge current of 275A.
