

## SolarMax Energy Systems

# 350M photovoltaic inverter

## Overview

---

What is a dp350u solar inverter?

Designed for large-scale solar plants, Delta's DP350U inverters utilize a highly compatible 1500 Vdc / 800 Vac system. They maximize energy generation with multiple MPPTs and overload design, ensuring peak performance even in high temperatures thanks to excellent heat dissipation.

What are the technical specifications of Solis 350kW 3-phase HV inverter?

Technical Specifications: Buy Solis 350KW 3-Phase HV Inverter boasts 12 MPPTs, high power tracking density, AFCI protection, PID recovery for optimal performance with large current bifacial modules.

What is a Solis S6 gu350k EHV three-phase PV inverter?

Solis S6 GU350K EHV three-phase PV inverters with a power of 350kW, 1500V DC input and 800 VAC output are designed to provide a more cost-effective adaptive solution for utility PV projects. It has maximum efficiency of up to 99%, with 12/16 MPPTs and 32 inputs, the string current is 20A, with perfectly matching efficient high-power PV module.

How many MPPTs does a Solis inverter have?

Solis' largest three-phase, 1500 VDC PV string inverter has 12 MPPT (250, 300 and 350) or 16 independent MPPTs (350K) options that allow for great redundancy in larger systems. Redundancy through a distributed method supports overall system uptime.

What is a utility-scale inverter?

Designed for durability, the utility-scale inverter supports operation at altitudes up to 5000 meters and is protected by an IP66-rated enclosure. An automatic tripping switch further enhances safety in harsh outdoor conditions. Max. PV input power per MPPT.

How many MPPTs does a CPS flexom inverter have?

Each inverter includes 15 MPPTs and is available with 30 unfused PV string inputs. The CPS FlexOM solution enables communication, controls and remote product upgrades. Our 350kW inverter units are high performance, advanced and reliable inverters designed specifically for the North American environment and grid.
