48v water pump inverter

Overview

What is a 48 volt solar water pump?

48 volt solar water pump for sale, with maximum head 56~95m (180~310ft), maximum flow 925~1585 gallons per hour, single-suction impeller, 3 inch inlet diameter and 1.25 inch outlet diameter. 1hp solar powered submersible pump can be used for irrigation, water tank, pool, livestock or farms.

What is a 48 volt inverter?

In other words, it is a device that can take current from a bank of batteries (48V) and convert it to the type supplied in the grid to power your appliances and devices. I suggest you use A 24-volt inverter or 36-volt inverter or 48-volt inverter when you need to power appliances over 3000 Watts.

What is a water pump inverter?

It is a completely new inverter for water pumps, and the first residential water pump inverter solution in the Middle East and Africa. With the inverter technology, it Regulates pump speed for longer lifetime, highest and reduced maintenance costs. Over Voltage, Over Current and Over Temperature protection.
