5G base stations in Uzbekistan s communications market

Overview

How many 5G base stations has Uztelecom commissioned?

Under that project, Uztelecom says it has modernized and commissioned over 3,500 base stations to date. The telco launched a 5G trial in April 2023 in the capital city of Tashkent that utilised over 60 5G base stations.

Why did Uztelecom launch 5G?

Uztelecom said the 5G launch is part of the telco's "Season of Renewal" project to modernize its mobile network that began in March 2022. Under that project, Uztelecom says it has modernized and commissioned over 3,500 base stations to date.

Does Uzbek Telecom have a 5G network?

State-owned telco Uzbektelecom, which operates as Uztelecom, announced on Thursday that it has launched its non-standalone (NSA) 5G network in all regional centres of Uzbekistan, and has teased plans to move ahead with 5G-Advanced technology soon.

How many base stations will be modernized in Uzbekistan?

As part of the project, more than 3,000 existing base stations across Uzbekistan will be modernized using the latest technologies, and more than 2,000 new base stations will be built and put into operation. The process of upgrading base stations to the 5G standard is an important stage of the project.

Does Tashkent have a 5G network?

The first stage of the project provides for full coverage of the city of Tashkent with a 5G network, as well as partial coverage of regional centers.

Why did the telco launch a 5G trial in Tashkent?

The telco launched a 5G trial in April 2023 in the capital city of Tashkent that utilised over 60 5G base stations. "The launch of the 5G network across the republic was an important step in the modernization of the telecommunications infrastructure," said Temur Mansurov, deputy director for the UzMobile branch of Uzbektelecom JSC, in a statement.
