

SolarMax Energy Systems

6 series 4 parallel 24v lithium battery pack

Overview

What is parallel connection of LiFePO4 batteries?

Parallel connection is ideal for applications that require high capacity, such as backup power supplies for buildings and off-grid solar power systems. It allows for efficient energy storage and ensures even distribution of charge and discharge within the battery pack. Parallel connection of LiFePO4 batteries also has some disadvantages, including:.

Does PowerTech offer a 24v battery pack?

PowerTech Systems offers a range of 24V Lithium battery pack to meet most of our customer needs (up to 48V). PowerBrick® battery offer a high level of safety through the use of cylindrical cells in Lithium Iron Phosphate (LiFePO4) technology.

Why is a parallel connection important for a battery pack?

This helps ensure the longevity and safety of the entire battery pack. Wiring: Proper wiring of the parallel connection is critical for efficient operation and safety of the battery pack. Incorrect wiring can lead to short circuits or other hazardous conditions.

 Efficient Higher Revenue

 Intelligent Simple O&M

 Flexible Abundant Configuration

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 100% DC Input Oversizing
- Max. PV Input Current 15A, Compatible with High Power Modules
- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type-A SPD: prevent lightning damage
- Battery Reverse Connection Protection
- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

LiFePO4 Lithium Batteries in Series VS Parallel Connection

Connecting lithium-ion batteries in parallel or series is more complex than merely linking circuits in series or parallel. Ensuring the safety of both the batteries and the person ...
