

SolarMax Energy Systems

60v inverter with power installation

12.8V6Ah

Nominal voltage (V):12.8
Nominal capacity (ah):6
Rated energy (WH):76.8
Maximum charging voltage (V):14.6
Maximum charging current (a):6
Floating charge voltage (V):13.6~13.8
Maximum continuous discharge current (a):10
Maximum peak discharge current @10 seconds (a):20
Maximum load power (W):100
Discharge cut-off voltage (V):10.8
Charging temperature (°C):0~+50
Discharge temperature (°C): -20~+60
Working humidity: <95% R.H (non condensing)
Number of cycles (25 °C, 0.5c, 100%dod): >2000
Cell combination mode: 32700-4s1p
Terminal specification: T2 (6.3mm)
Protection grade: IP65
Overall dimension (mm):90*70*107mm
Reference weight (kg):0.7
Certification: un38.3/msds

Overview

Do I need a 60Hz inverter?

Here in the US, things run at 60Hz, in Europe and most other places around the world, things run at 50Hz. You'll most likely require a 60Hz inverter if you are running a device intended to run on US power. We like to go camping and travel quite frequently.

Can a power inverter be installed on a 12 volt system?

The power inverter (except the SPV-25 because of the high current draw) comes with a set of jumper cables to attach directly to your battery terminals for temporary usage. For permanent installation, you should hardwire the power inverter into your 12 volt system as described below. When connecting cables, a spark may occur. This is normal.

How to connect a power inverter?

The Right Steps are: Step 1: Connect the positive connector which is marked with red in the positive battery terminal Step 2: Similarly, connect the negative connector that is marked with black on the negative battery terminal on your power inverter. Step 3: Mount the ground wire connector with the inverter's grounding terminal.

What is the impulse endeavor inverter?

The Impulse Endeavor Inverter gives our Flex-Force Power System the capacity to charge everything from mobile phones and laptops to portable lights and fans. It's a portable inverter that generates power where you need it from any 60V battery in the Flex-Force lineup. Charges the electronics that keep you going, wherever you need power.

Where can I charge my 60V Max products?

Charge your 60V Max products or other electronics from anywhere with Toro's 60V Max* Flex-Force Impulse Endeavor. Comes with 3 outlet options: USB-A,

USB-C & 120V.

What if the inverter is not working?

The inverter also has over-temperature protection if the temperature is high. Then the inverter will automatically reduce the working output efficiency. Or stop working. After cooling down, restart. It is recommended to install the inverter in a ventilated, dry and cool place.

60v inverter with power installation
