

SolarMax Energy Systems

Albania Power Emergency Energy Storage Equipment

Overview

What is the situation in the development of the energy sector in Albania?

The situation in the development of the energy sector in Albania 2.1.
Electricity production for 2023 8,796 GWh of electricity, almost 11% more than the energy consumption. increase in production by 25.6% compared to 2022, where it was 7,003 GWh.

How many private energy companies are in Albania?

Currently, the number of private Albanian companies that have become part of the Albanian Electricity Stock Exchange has reached 12. Meanwhile, together with the 5 Albanian public energy companies, which were the first to join, the total number of entities goes to 17.

What are the key pillars of the Albanian energy policy?

Key pillars of the Albanian's energy policy. -Government Medium Term/long term Plan for the supply with electricity and gas. -Increasing Security of the energy supply . -Functioning as a regional energy center, that contributes on the development of a safe and the guaranteed energy network in South-East Europe.

How many companies are members of the Albanian electricity Stock Exchange?

on February 1, 2024. The number of companies that are members of the stock exchange has been increasing since the start of operations, on April 11, 2023. Currently, the number of private Albanian companies that have become part of the Albanian Electricity Stock Exchange has reached 12.

Is Albania a member of the Energy Charter?

(Ratified by the Law no. 9501, dated 04.03.2006) Meanwhile, Albania is one of the signatories of the Energy Charter and during the years 2018- 2019, Albania also held the presidency of this organization.

What projects are being developed in Albania?

electricity interconnection lines with neighboring countries, as well as the development of projects new developments in the gasification of the country, which Infrastructure include projects for the construction of LNG terminals and those for connecting Albania with regional gas pipeline networks. 2.-
