

## SolarMax Energy Systems

# Applicable tax rate for photovoltaic panels

## Overview

---

The 30% federal solar tax credit ends after December 31, 2025, and missing the deadline could add thousands to the cost of your home solar system. According to SolarReviews data, you can expect to pay \$23,840 for a typical 8-kW solar installation. What is a solar photovoltaic (PV) tax credit?

The Federal Investment Tax Credit (ITC) for homeowners and the Inflation Reduction Act recently signed by President Biden are tax credits for eligible solar photovoltaic (PV) systems. This credit can be applied for other energy efficient improvements as well.

Are photovoltaic systems tax deductible?

Photovoltaic systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements. The home served by the system does not have to be the taxpayer's principal residence. Find products that are eligible for this tax credit.

Does a photovoltaic system have to be used in a home?

The system must be used in the dwelling. Photovoltaic systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements. Tax Credit includes installation costs. The home served by the system does not have to be the taxpayer's principal residence.
