Are Belgian Communications base stations used for 5G base stations

Overview

Does Belgium have a 5G network?

The 5G network coverage can be viewed [here](#). Overall, the 5G network appears to be better developed in the northern area of Belgium, in particular in Antwerp, Ghent and coastal cities, as well as in the periphery of Brussels. This is partially due to higher population density in these areas.

Which network has the best 5G outdoor coverage in Belgium?

As such, Telenet/BASE has the best 5G outdoor coverage in Belgium, followed by Proximus with 92% and Orange with 83%. 5G is the network of the future. Ready for more users, more devices. And that's essential because we use the internet more and more every day. Lagging video and stuttering calls are now behind us.

Does base offer 5G?

At BASE we believe our network is there to serve all our customers. And that includes those who want to use 5G now. As such, we are making 5G available with all our monthly plans, for free! Surf superfast on the go on the 5G network with the largest range in Belgium.

Which B2C network has the best 5G coverage in Belgium?

In terms of B2C territorial coverage, Telenet has the greatest 5G outdoor coverage with 85% of the Belgian territory, followed by Proximus with 75% and Orange Belgium with 63%. Telenet has the broadest B2C 5G indoor coverage with 57% of the territory, followed by Proximus with 43% and Orange with 40%.

When were 5G regulations adopted in Belgium?

5G regulations were finally adopted on 28 November 2021. The national regulatory authority (the Belgian Institute for Postal Services and Telecommunications or BIPT) then adopted a series of individual decisions on

23 August 2022 and 16 November 2022 granting 5G user rights to the following operators:.

Will 5G cost more than other mobile technologies?

It is becoming clear that 5G will cost much more to deploy than previous mobile technologies (perhaps three times as much) as it is more complex and requires a denser coverage of base stations to provide the expected capacity.

Are Belgian Communications base stations used for 5G base station

5G Deployment: State of Play in Europe, USA and Asia
