

SolarMax Energy Systems

**Are you a manufacturer of
containerized energy storage
power stations**

Overview

Why should you choose a container energy storage system?

Safety is paramount in our container energy storage systems. Through advanced multilevel safety protocols, we guarantee the security of your energy investments, prioritizing user safety, system integrity, and peace of mind. Prepare for the unexpected with our container energy storage's black start capability.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is container energy storage?

Our container energy storage optimizes distribution, seamlessly integrates renewables, and eases grid strain. From factories to remote areas, we deliver consistent power, advancing sustainability. As dedicated partners, we redefine energy access, steering towards a brighter, greener future. Join us in shaping tomorrow's energy landscape.

How can container energy storage help a grid?

Renewable Integration: The intermittent nature of renewable sources can strain grids. Container energy storage offers a seamless way to integrate renewable energy by storing surplus power and releasing it when needed, ensuring a smoother integration of clean energy into the grid.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What is a containerized battery system?

Whether paired with EV charging, solar, wind, or other renewables, these containerized battery systems help reduce energy costs, boost site resilience, and unlock new revenue streams.

Are you a manufacturer of containerized energy storage power station ...

ISEMI professional container type energy storage power station ...

ISEMI is a company dedicated to the research and development, production, and sales of containerized energy storage power stations, committed to providing efficient, safe, ...

Professional ESS Container Manufacturer & Supplier ...

Sudden power outages always put people in a difficult situation, resulting in significant financial losses for busy factories or businesses. If you want to use ...

[Get a quote](#)

off-Grid Power Station Containerized Battery Energy Storage ...

Containerized Battery Energy Storage System Including PCS Containerized BESS is a highly integrated medium-sized system, incorporating all necessary equipment into a single, ...

[Get a quote](#)

 **Efficient Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

 **Intelligent Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

Containerized Energy Storage System

Our containerized energy storage system is composed of a battery enclosure, a cooling system, a fire suppression system, a battery management system and local controllers. It offers energy ...
