Austria Communications builds 5G base stations

INTEGRATED DESIGN

EASY TO TRANSPORT AND INSTALL,
FLEXIBLE DEPLOYMENT

Overview

When will T-Mobile Austria activate 5G?

Based on this spectrum, T-Mobile Austria activated the first 5G base stations in all of Austria on Tuesday, March 26, 2019, primarily in rural regions. Additional 5G stations will be integrated in the mobile network over the course of the further build-out.

Can Austria become a 5G pioneer?

Austria's modest population of 8.9 million people has made it possible for the small country to become somewhat of a 5G pioneer, according to many accounts. Austrian operators hope to deploy 5G services at main traffic routes by the end of 2023 and have planned to have nearly nationwide 5G coverage by the end of 2025.

When will 5G be available in Austria?

Austrian operators hope to deploy 5G services at main traffic routes by the end of 2023 and have planned to have nearly nationwide 5G coverage by the end of 2025. With 5G networks deployed in 958 locations, according to Ookla's coverage map, Austrian operators were well on their way to accomplishing these goals.

Which telco has the largest 5G network in Austria?

A1 officially launched its commercial 5G services at the end of January 2020. While the telco was a bit late to game compared to the other telcos on this list, its network covered 350 locations across 129 municipalities, making it, at the time, the largest 5G network in Austria, spanning 54,000 square kilometers.

What is T-Mobile Austria's 5G strategy?

T-Mobile Austria will give special 5G routers to the first "friendly customers". The first 5G smartphones are expected by the end of 2019. A greater variety

of models and larger numbers of 5G-enabled smartphones and tablet PCs will likely hit the market in 2020. T-Mobile Austria is relying on network diversity in its build-out strategy.

Who owns 5G in Austria?

Owned by German telecom group Deutsche Telekom, the newly formed telco launched commercial 5G services in March 2019 and expects to cover 50% of Austrian households with 5G technology by the end of 2021, a company spokesperson told RCR Wireless News. The telco ended last year with 1,200 5G sites nationwide, covering approximately 40% of households.
