

## SolarMax Energy Systems

# BESS Energy Storage Capacity Prices in South America

## Overview

---

What's happening in Chile's Bess market?

The current wave of excitement around Chile's BESS market started in October 2022, when the Chilean government passed legislation that incentivised the deployment of energy storage. The bill allows standalone energy storage systems to receive income from dispatching their energy and power in the country's National Electric System market.

Should Bess storage be paired with large solar assets?

The Dominican Republic's National Energy Commission (CNE) issued a resolution in February 2023 that requires BESS storage to be paired with large solar assets. However, the remuneration is not yet clear and developers are concerned about interconnection delays for their BESS assets.

Does Colombia have a power purchase agreement for hybrid solar & Bess projects?

As of now, Colombia's reliability charge (Cargo por Confiabilidad) has encouraged hybrid solar + BESS projects to progress. Large energy companies have expressed that there are no Power Purchasing Agreements (PPAs) available specifically for stand-alone storage projects, making it harder to finance those projects.

Should energy storage be a luxury asset in Chile?

Having energy storage in Chile is no longer a luxury asset but has become an "absolute necessity", explains Alejandro McDonough, business development manager of Americas area sales at Wärtsilä Energy Storage and Optimisation (Wärtsilä ES&O).

Will a PPA add Bess in Puerto Rico?

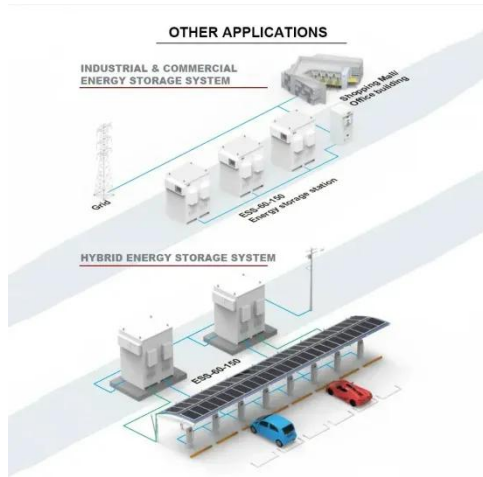

Under ASAP, IPPs with existing PPAs with Puerto Rico's Power Authority (PREPA) would add BESS at their locations "on an accelerated basis," leading

to an estimated 380 MW of additional contracted BESS capacity by 2026. 3 Peru has no existing BESS regulation and is currently evaluating how to move forward with battery storage projects.

How will Bess be compensated in 2021?

Colombia's BESS tender in 2021, won by Canadian Solar, was a good step forward, but there is still no clear regulation on how stand-alone BESS will be compensated. Regulators are debating whether to handle storage as a transmission or generation asset, given its flexibility.

## BESS Energy Storage Capacity Prices in South America

### The state of battery storage (BESS) in Latin America: ...

The opportunities for battery energy storage systems are growing rapidly in Latin America. Below are some key details for those who want to ...
