

SolarMax Energy Systems

Belgian 150A lithium battery pack

Overview

How safe is the lithium-ion power brick 12v-150ah battery?

The Lithium-Ion PowerBrick battery 12V-150Ah offers high level of safety through the use of cylindrical cells in Lithium Ferro Phosphate technology (LiFePO₄ or LFP). PowerBrick 12V-150Ah integrates an innovative Battery Management System (BMS) in its casing to ensure a very high level of safety in use.

Where can the lithium battery powerbrick 12v-150ah be installed?

Thanks to its technology, the lithium battery PowerBrick 12V-150Ah can be installed in any position (vertically, lying on the side or head down). The electrical parameters of the PowerBrick lithium battery 12V-150Ah are compatible in all respects with those of an AGM lead battery of 12V.

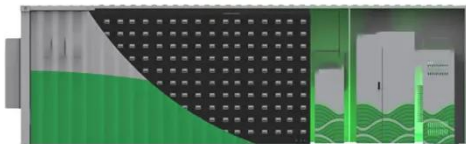

Does powerbrick+ use a lithium ion Charger?

PowerBrick+ lithium ion technology uses the latest and most advanced built-in battery management system (BMS) to monitor and prevent damage to the battery during use. You may utilize a Lead-acid charger with PowerBrick, but some customers prefers using a Lithium charger to keep a better lifespan.

What is the voltage of a powerbrick lithium battery?

The PowerBrick Lithium battery 12V-150Ah has a nominal voltage of 12.8V. It can be easily assembled in series (up to 4 PowerBrick 12V in series, or 2 PowerBrick 24V in series) and in parallel (up to 16 PowerBrick in parallel). The battery is protected by a waterproof ABS case, splash and dust resistant (Protection index IP65).
