

SolarMax Energy Systems

Belgian wind and solar energy storage power station

Overview

When will a battery storage system be installed in Belgium?

Commissioning is scheduled for 2024. Dutch energy company Eneco said it is investing in a major battery storage project in Wallonia. With the installation of a 50 MW/200 MWh battery storage system, sustainable electricity can be used more efficiently to balance the Belgian grid.

How much did the energy storage facility cost in Belgium?

In total, the energy storage facility was a €33 million investment. The Deux-Acren site may be the biggest of its kind in Europe, but Belgium has several other similar facilities, namely in Ruien (in the province of East Flanders) and in Balen (in the province of Antwerp).

Can a battery storage system help balance the Belgian grid?

Dutch energy company Eneco said it is investing in a major battery storage project in Wallonia. With the installation of a 50 MW/200 MWh battery storage system, sustainable electricity can be used more efficiently to balance the Belgian grid. The building permit has already been received.

What is Eneco doing in Belgium?

The battery energy storage project is another step in Eneco's investments in Belgium's transition to a fully sustainable energy system. With 128 onshore wind turbines, participations in Belgium's 2 largest offshore wind farms and nearly 400,000 solar panels, it is the largest green and the greenest major energy player in the country.

What is the largest energy storage project in Europe?

A first flagship energy storage project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.

Will Sweco design a Battery Park for giga storage Belgium?

Sweco will design one of continental Europe's largest battery parks, Green Turtle, for the energy storage company GIGA Storage Belgium. This facility will have a storage capacity of 2,800 MWh of electricity.

Belgian wind and solar energy storage power station

Belgium has the largest energy storage facility in Europe

Belgium can call itself the home of the largest energy storage facility of continental Europe after a French company took interest in a small town in the province of Hainaut.
