

Bi-sided solar panels that can generate electricity

Overview

Manufacturers are now able to produce bifacial panels, which feature energy-producing solar cells on both sides of the panel. With two faces capable of absorbing sunlight, bifacial solar panels can be more efficient than traditional monofacial panels – if used appropriately.

Bi-sided solar panels that can generate electricity

The Complete Guide to Bifacial Solar Panels

What Are Bifacial Solar Panels? Bifacial solar panels are solar panels that can generate electricity from both sides of the panel. They are ...

Product Model
HJ-ESS-215A(100kW/215KWh)
HJ-ESS-115A(50kW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
