

SolarMax Energy Systems

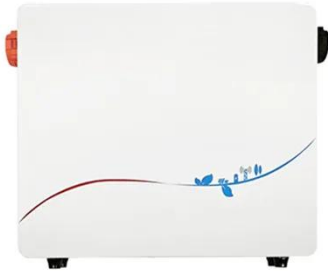

British Solar Energy System BESS

Overview

Our portfolio consists of 12 solar and co-located solar-battery energy storage system (BESS) projects, which together will generate approximately 600GWh of clean electricity each year. That's enough to power around 160,000 homes and reduce carbon emissions by 140,000 tonnes annually.

British Solar Energy System BESS

UK 331 MWh BESS site goes from grid energization ...

In early February, the 100 MW/ 331 MWh project in Bramley, England, developed by BW ESS and supplied with Sungrow's PowerTitan 2.0 ...
