

SolarMax Energy Systems

Canadian 60kw off-grid inverter

LFP12V100

Overview

What is a Canadian Solar three-phase string inverter?

The Canadian Solar Three-Phase String Inverter 60kW is engineered for commercial and industrial solar installations, providing high efficiency, reliability, and advanced energy management. With four MPPTs and a maximum efficiency of up to 98.8%, these inverters ensure optimal energy harvesting across diverse conditions.

What is a grid-tied string inverter?

Canadian Solar's grid-tied, transformer-less string inverters help to accelerate the use of three-phase string architecture for commercial rooftop and small ground-mount applications. These inverters are modular design building blocks that provide high yield and enable significant BoS cost savings.

What is a hybrid inverter?

The easy to install and high performing hybrid inverter delivers continuous power for grid-tied or off-grid stand-alone solar power generation for large commercial systems with 480Vac three-phase output and 48Vdc battery backup power. WANT A SOLAR PANEL SYSTEM AT THE LOWEST COST?

START SOLAR DESIGN.

Are EG4 hybrid inverters good for off-grid systems?

EG4 Hybrid Inverters for Off-Grid Systems Reliable, scalable, and solar-ready. EG4's hybrid inverters are designed for off-grid and backup power setups with high PV input, battery support, and true split-phase output.

What is a Sol-Ark 60K outdoor rated enclosure?

Supports smart loads, parallel stacking, or AC coupling to existing PV systems. All-In-One means the Sol-Ark 60k outdoor-rated enclosure is a pre-wired system that contains the inverter, charge controller, auto-transfer switch,

monitoring and connection unit all in one package; no fuses, breakers, or combiner boxes necessary.
