# China s photovoltaic modules for export

## Overview

---

China exported 235.93 GW of modules from January to December 2024, up 13% YoY from 207.99 GW. In December 2024, the five largest markets importing Chinese modules were, in order, Brazil, the Netherlands, India, Saudi Arabia, and Spain, with monthly imports making up 42% of the global total. How many PV modules did China Export in 2023?

Separately, market research firm InfoLink has also released an analysis report based on customs data, which pointed out that from January to December 2024, China exported a total of 235.93GW of PV modules, an increase of 13% compared to 207.99GW in the same period in 2023. Comparison of Chinese PV module exports in 2023 and 2024. Source InfoLink.

How big is China's photovoltaic module exports?

In addition, China's cumulative photovoltaic module exports have exceeded \$200 billion in the past decade, while the cumulative exports volume of module have exceeded 575GW, Mr. Zhang Sen added. China's top PV module manufacturers.

Which countries import PV modules from China?

In December, China exported approximately 16.63GW of PV modules, a 9% increase compared with the 15.2GW in November. The ranking of countries importing PV modules from China was Brazil, the Netherlands, India, Saudi Arabia and Spain. The total monthly imports of these major countries accounted for about 42% of the global market.

What is China's solar module export value?

Both the volume and value of exports have increased in recent years. In 2021, China's solar module export exceeded 100 gigawatts for the first time, with a growth rate of more than 25% year on year, while the export value exceeded \$20 billion, up 15%-20%.

Why are China's solar modules exported to overseas customers in 2022?

More than half of China's PV modules were supplied to overseas customers in 2022, despite a complex global solar market influenced by many uncertain factors such as the prices and costs, policy changes and the pandemic. Both the volume and value of exports have increased in recent years.

How many GW of modules did China Export in December 2024?

China exported 16.63 GW of modules in December 2024, up 9% MoM from 15.2 GW and up 3% YoY from 16.18 GW, according to InfoLink's customs data. China exported 235.93 GW of modules from January to December 2024, up 13% YoY from 207.99 GW.
