

SolarMax Energy Systems

Congo Kinshasa Township Energy Storage Power Station

Overview

The plastics-to-energy industrial complex is under development, primarily to address the dire situation of plastic waste in the city of Kinshasa. As of August 2021, it was estimated that 9,000 tonnes of solid waste are generat.

The power station is under development by Clean-Seas Inc., a "provider of waste management technology solutions", an enterprise, based in the state of . . .

The construction budget is quoted as US\$30 million (€25 million). Clean-Seas Inc. will design, develop, build, operate and maintain the power plant for 30 years after commissioning. The contracts include a guarantee.
