

SolarMax Energy Systems

Containerized PV Inverter Model

Overview

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.

What is a proinsener solar inverter station?

Proinsener Solar inverter stations are designed and integrated specifically for each project. It is an easily installable and compact product perfect for generating solar power on a large scale. All this allows easy and quick field connection to the medium voltage transforming station (MV), which reduces transport and installation costs.

What is GE flexinverter 2kV solar power station?

Integrated power conversion solution for solar and battery energy storage applications. In addition to our widely deployed 1.5kV FLEXINVERTER platform, GE Vernova is proud to introduce the brand new FLEXINVERTER 2kV Solar Power Station. Let's start the next chapter in utility scale solar power! Why 2000 Vdc?

.

What is GE vernova flexi nverter?

Building on this proven energy technology, GE Vernova's FLEXI NVERTER brings GE Vernova's technology leadership together with its system integration capabilities to deliver a complete solar and battery energy storage power conversion solution.

How a photovoltaic inverter station works?

In each inverter station all of the necessary equipment is integrated to connect to the medium voltage network of the photovoltaic plant, always complying with the standards of performance and quality required according to the project and its location.

Why is GE vernova a 2000 VDC inverter?

Why 2000 Vdc?

GE Vernova has accumulated more than 30 gigawatts of total global installed base and backlog for its inverter technology* and led the development of the first 1,500 Vdc & 2000 Vdc to the utility scale solar market, GE Vernova also has 15+ years of experience in solar & storage systems.
