

SolarMax Energy Systems

Containerized photovoltaic iron-lithium energy storage

Overview

This product is designed as the movable container, with its own energy storage system, compatible with photovoltaic and utility power, widely applicable to temporary power use, island application, emergency power supply, power preservation and backup.

Containerized photovoltaic iron-lithium energy storage

Containerized 215kwh, 372kwh battery energy storage ...

A containerized energy storage system uses a lithium phosphate battery as the energy carrier to charge and discharge through PCS, realizing multiple energy ...
