

SolarMax Energy Systems

Costa Rica container solar cell application

Overview

Can a warehouse use solar energy in Costa Rica?

Solar energy has become an increasingly popular option for a variety of sectors, and warehouses are no exception. In Costa Rica, with its abundant solar radiation, this renewable energy source offers a number of benefits that can transform the way your facility operates.

Why should you choose a solar system in Costa Rica?

Costa Rica has an ideal climate for solar energy generation, which guarantees a constant and efficient energy production during most of the year. In addition, there are several companies specialized in the installation and maintenance of solar systems, which facilitates the implementation process.

Can a company sell solar panels in Costa Rica?

Most companies selling solar systems are assembled Asian solar panels with some U.S. made components. In 2016, the Costa Rican government approved a new regulation which allows individuals and companies to produce solar energy (up to 15 percent of the users per district) and sell up to 49 percent of their excess production back to the grid.

Are there private solar companies in Costa Rica?

There are many private companies, most of them members of ACESOLAR (Costa Rican Solar Energy Association), and the CDG (Chamber of Distributed Energy Generation of Costa Rica). They have changed the current legislation opening the market and allowing more solar panels and batteries to be installed.

How much solar energy will Costa Rica have in 2030?

Based on the projections made by the Costa Rican Ministry of Environment and Energy (MINAE), the participation of solar energy in Costa Rica for 2030 will reach 1.3 percent, while the hydroelectric market will increase to 80

percent.

How many solar systems are installed in Costa Rica?

ICE has installed 2,559 systems in homes, 649 systems installed for community activities, and 132 systems installed in conservation areas. There are three major solar parks in Costa Rica; Juanilama by Coopeguanacaste, Pocosal by Coopelesca, and Valle Escondido that will be built in 2021 by BMR Energy, contracted by ICE but not in use.
