Croatia solar all-in-one home use

Overview

How many MW of solar in Croatia?

Croatia held a renewables auction in summer 2024 that awarded more than 400 MW of solar across two categories. RES Croatia said the allocated capacities were a total of 330 MW across nine solar plants greater than 1 MW, alongside a further 83.5 MW in projects between 200 kW and 1 MW.

How much solar did Croatia install in 2024?

But with residential and industrial rooftops accounting for most new installations, a key focus is enabling utility-scale growth. Croatia installed 397.1 MW of solar in 2024, according to figures from RES Croatia. The figure is an increase on the 238.7 MW of solar that were installed in 2023.

Does Croatia have a solar market?

The Renewable Energy Sources of Croatia Association (RES Croatia) says Croatia's solar market is growing year over year. But with residential and industrial rooftops accounting for most new installations, a key focus is enabling utility-scale growth. Croatia installed 397.1 MW of solar in 2024, according to figures from RES Croatia.
