

SolarMax Energy Systems

Dimensions of photovoltaic panels in Cyprus

Overview

What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

Why should you install solar panels in Cyprus?

The technological development within photovoltaic systems goes fast. The solar panels are becoming ever more effective and the cost is decreasing. Installing solar panels in Cyprus is becoming an increasingly profitable option for private households. Save € with solar panels in Cyprus [Read about the Net Metering scheme](#) [Page contents](#).

Where can photovoltaic panels be installed in Cyprus?

Photovoltaic systems can be installed on flat and inclined roofs and on the ground. Our team can visit the place where you want the solar panels to be installed, evaluate the amount of space, sun exposure and possible shading and suggest the best place so that you make the most out of your photovoltaic panels in Cyprus.

Can I use photovoltaic systems to harvest solar energy in Cyprus?

Using photovoltaic systems to harvest the solar energy in Cyprus is a no-brainer. Learn how you can save € with solar panels via the Net Metering scheme [Using photovoltaic systems to harvest the solar energy in Cyprus is a no-brainer](#). Learn how you can save € with solar panels via the Net Metering scheme.

Does Cyprus support photovoltaic systems?

The government of Cyprus, along with the RES and Energy Conservation Fund, offers support schemes for the installation of photovoltaic systems. This is because solar power is considered to be the future of energy and promoting

the use of renewable energy sources is a priority.

What incentives are available for installing photovoltaic systems in Cyprus?

Homeowners in Cyprus can take advantage of several incentives for installing photovoltaic systems, including the recently announced Grant Scheme for the installation of photovoltaic systems, which provides financial incentives for the installation of photovoltaic systems.
