

## SolarMax Energy Systems

# Egypt Portable Off-Grid Power Supply BESS

## Overview

---

Will Egypt build a microgrid?

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation of a 8.2 MW solar plant and 2 MW/4MWh battery energy storage system, which would be built at the site of an existing microgrid in western Egypt.

Which solar projects are being built in Egypt?

The first project involves a 1 GW solar plant with a 600 MWh BESS in the Benban area. The second project is a 300 MWh BESS at the site of Amea Power's 500 MW Abydos solar array, which is currently under construction. Both projects are in Egypt's Aswan governorate.

Is AMEA power launching a new solar PV project in Egypt?

Following the development of the 500MW Abydos Solar PV Project, AMEA Power has been awarded two new landmark renewable energy projects in Egypt. The firm noted that the first project, a new 1,000MW solar PV power plant with a 600MWh BESS in Aswan Governorate's Benban area, will mark Africa's largest Solar PV and BESS project.

Does Scatec have a solar project in Egypt?

In a separate announcement, Norway's Scatec said it had signed a 25-year PPA with Egyptian Electricity Transmission Co. (EETC) for a 1 GW solar and 100 MW/200 MWh battery storage hybrid project in Egypt. "This will be the first hybrid solar and battery project in Egypt," said Scatec CEO Terje Pilskog.

Will Benban & Abydos be the largest solar-plus-Bess project in Africa?

Amea Power said the Benban site will be the largest solar-plus-BESS project in Africa, while the Abydos project will represent the first ever utility-scale BESS solution in Egypt. The company is investing \$800 million across both projects, which are expected to provide energy to more than 769,000 homes.

Which is Africa's largest solar PV & Bess project?

The firm noted that the first project, a new 1,000MW solar PV power plant with a 600MWh BESS in Aswan Governorate's Benban area, will mark Africa's largest Solar PV and BESS project. The second project, a 300MWh BESS, expands the company's existing 500MW Abydos solar PV power plant currently under construction in Kom Ombo, Aswan Governorate.
