Energy Storage Battery Capacity Ranking

Overview

What are the best battery energy storage companies?

When it comes to the 10 Best Battery Energy Storage Companies, industry leaders like BYD, Tesla, MANLY Battery, and CATL set the benchmark with cutting-edge technology and global market dominance.

What are the top 10 battery manufacturers in 2024?

Among the top 10 global battery manufacturers (power + energy storage) in 2024, six are Chinese companies: CATL, BYD, EVE Energy, CALB, Gotion High-Tech, and Sunwoda. Three South Korean companies—LG Energy Solution, Samsung SDI, and SK On—along with Japan's Panasonic also made the list.

Part 1. Breakdown of the Top 10 Battery Shipments in 2024.

Which country has the most energy storage batteries?

China, in particular, is a major player, with CATL leading globally in battery deliveries for energy storage. The country's aggressive push to build out its renewable energy capacity is supported by the large-scale implementation of energy storage lithium batteries.

What are the top 5 energy storage cell manufacturers?

The top five largest energy storage cell manufacturers in the first half are CATL, EVE Energy, REPT, Hithium, and BYD. CATL secured the top position with orders from major customers like Tesla and Fluence. EVE Energy received orders from all big customers, sustaining second place in the industry.

What is a battery energy storage system (BESS)?

Over the past three years, the Battery Energy Storage System (BESS) market has been the fastest-growing segment of global battery demand. These systems store electricity using batteries, helping stabilize the grid, store renewable energy, and provide backup power. In 2024, the market grew by 52%, compared to 25% growth in the EV battery market.

Who is shaping the future of battery energy storage?

Leading companies, from BYD, MANLY Battery to Johnson Controls, are playing pivotal roles in shaping the future of battery energy storage through strategic expansions and product innovations.

Energy Storage Battery Capacity Ranking

Which are the top 20 countries for battery energy storage capacity?

According to Rho Motion's BESS database as of February 2025, by 2027 the top 20 countries' deployed BESS grid capacity will have grown by at least 289% compared to 2024.
