

SolarMax Energy Systems

Energy storage cabinet power box

Overview

Why should you choose a battery based energy storage system?

By sourcing batteries separately, users can expand their energy storage capacity as needed without overhauling the entire system. This scalability makes it an ideal solution for both residential and light commercial applications, future-proofing investment and enabling smart energy management.

What is a liquid cooled battery energy storage system?

The system consists of: Ready to install liquid-cooled battery energy storage system with one (2-hour version) or two (4-hour version) battery cabinets, and a PCS cabinet. Liquid cooling provides two years longer battery service life and 15% higher discharge capacity, while maintaining less than 2.5 degree C delta between cells.

How many energy storage units can be connected together?

Stackable and lightweight, installers can effortlessly connect up to four units together for additional energy storage. Available in three sizes including 9 kWh, 13.5 kWh, and 18 kWh to meet an installation company's growing customer energy demands. Operating modes: back-up mode, self-use mode, time-of-use mode and custom modes.

What is a savant power storage 20?

Key features: The Savant Power Storage 20 is an all-in-one performance battery and inverter solution that's powerful yet simple to install. Scalable to handle electrical services up to 800A across multiple units, the Power Storage 20 delivers clean reliable energy to every circuit in the home.

Can GM energy powerbank be combined with GM Powershift?

The 17.7kWh GM Energy PowerBank can be combined to create a 35.4kWh stationary storage solution. GM Energy PowerShift charger and GM Energy

V2H Enablement kit, allowing customers to transfer stored energy between their applicable EV, residential home and stationary storage unit.

How many savant power storage 20 batteries can be installed?

Each Savant Power Storage 20 Battery can support up to two Savant Power Inverters, allowing for an increased solar capacity. The cabinet and modular battery tray design make installation faster and simpler. Up to eight Power Storage 20s can be installed for 160 kWh of combined storage.
