

SolarMax Energy Systems

Eritrea Power Station Energy Storage Power Station

Overview

Where can I find information on renewable power capacity & generation of Eritrea?

You can find information on the renewable power capacity and generation in Eritrea on the homepage of IRENA.org. Climatescope 2019 lists the clean energy policies and investments for Eritrea.

Where can I find information about energy in Eritrea?

You can find information on energy production, total primary energy supply, electricity consumption, and CO2 emissions for Eritrea on the IEA homepage. For data on energy access (access to electricity, access to clean cooking, renewable energy, and energy efficiency) in Eritrea, visit the Tracking SDG7 homepage.

How does Eritrea provide electricity to remote areas?

Eritrea is also embarking upon an extensive rural electrification programme. The primary goal is to provide electricity to rural areas from the national grid where possible, and from decentralised systems (wind, solar, gensets, etc.) in more remote areas.

Where is Eritrea's first solar plant?

The government of Eritrea has received a \$49.92 million grant from the African Development Bank to fund a 30 MW photovoltaic plant in the town of Dekemhare, 40 km southeast of the capital Asmara. It will be the country's first large-scale solar plant.

Eritrea Power Station Energy Storage Power Station

Eritrea Launches First Solar Power and Storage System

In a landmark move toward sustainable energy, Eritrea is set to welcome its first solar photovoltaic energy storage plant, marking a significant step in the nation's renewable ...

- Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 150% Peak Output Power
 - 2 MPPT Trackers, 150% DC Input Oversizing
 - Max. PV Input Current 15A, Compatible with High Power Modules
- Intelligent Simple O&M**
 - IP66 Protection Degree: support outdoor installation
 - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type I SPDs: prevent lightning damage
 - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
 - Plug & Play, ETS Switching Under 10ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverters Parallel
 - AFCD Function (Optional): when an arc fault is detected the inverter immediately stops operation
