Estonia telecommunication base station electricity prices

Overview

How much does electricity cost in Estonia?

Estonia, June 2023: The price of electricity is 0.320 U.S. Dollar per kWh for households and 0.183 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

Why do Estonians have electricity plans?

Most Estonians have electricity plans linked to the current spot price, enabling them to respond to hourly price fluctuations and manage their consumption more efficiently. Estonia is an active participant in the European Union's electricity market. This integration is pivotal for the country's energy policy and market dynamics.

Why do Estonians use smart meters?

Over 98% of Estonian households are equipped with smart meters, following European Union regulations. These advanced meters provide real-time data on electricity usage, measuring consumption hourly. The widespread adoption of smart meters allows consumers to be more informed about their energy usage.
