

## SolarMax Energy Systems

# Export of industrial energy storage lithium batteries

## Overview

---

Which countries export lithium batteries in 2024?

The 5 biggest exporters of lithium batteries are mainland China, United States of America, Singapore, Germany and Indonesia. All told, those 5 major suppliers generated over half (52.4%) of overall exports for lithium batteries in 2024.

How much do lithium ion batteries exports cost?

The overall value of lithium ion batteries exports increased by an average 31.7% for all exporting countries from five years earlier in 2020 when lithium ion batteries shipments were valued at \$2.71 billion. Year over year, revenues from exported lithium ion batteries accelerated by 52.4% compared to \$3.5 billion during 2023.

Are lithium batteries the future of energy storage?

Lithium (Li)-metal batteries are one of the most promising candidates for the next-generation energy storage devices due to their ultrahigh theoretical capacity. Realistic development of a Li metal battery is impeded by the uncontrollable dendrite proliferation upon the chemically active [parts]. Lithium batteries are a potential solution for the future of energy storage.

Can lithium be economically developed?

tion. Only a subset of capacity can likely be economically developed. A pipeline of domestic projects is developing to tap these resources, including first-of-a-kind deployments to extract and refine lithium from unconventional brine and clay resources, scaling production on domestic.

How is the US positioned to compete in the lithium market?

cell production as the market continues to develop. Lithium Refining Lithium extraction and refining are other areas of the supply chain where the U.S. is well-positioned to compete given its substantial lithium reserves, and firms

are taki.

How does the Department of state support a battery supply chain?

through the American Battery Materials Initiative and other forums. The Department of State is leading international engagement and coalition-building with likeminded nations through forums like the Minerals Security Partnership,<sup>114</sup> deepening relationships and helping to mobilize investment to diversify and secure supply chains

### Home Energy Storage (Stackble system)

#### Product Introduction

- ✓ Scalable from 10kWh to 50 kWh
- ✓ Self-Consumption Optimization
- ✓ Integrated with inverter to avoid the compatibility problem
- ✓ LFP battery, safest and long cycle life
- ✓ Stackable design, effortless installation
- ✓ Capable of High-Powered Emergency-Backup and Off-Grid Function
