

## SolarMax Energy Systems

# Fangda inverter price

## Applications

Electric motorcycle

Electric Forklift

Electric Boat

Golf Cart

RV

Audio Equipment

Solar Street Light

Household Energy Storage

Energy Storage System

## Overview

---

Who is Fangda motor?

Established in 1989, FANGDA Motor is one of the well-known professional electric motor manufacturers in China. It combines development, research, manufacturing, import and export together. We gained good credits among clients by our highly qualified electric motor products. 1000 thousand motors.

Who is Zhejiang Fangda electric machine?

Established in 1980, Zhejiang Fangda Electric Machine Co., Ltd is a well-known professional electric motor manufacturer in Zhejiang, which is an enterprise integrating R&D, production, import and export.

What is frequency inverter?

The frequency is directly related to the rotary speed of the motor, in other words, the faster the frequency, the faster the rotary speed. If the motor is no need to run at full speed, the frequency inverter can be used to reduce frequency and voltage to meet the requirement of motor load.

What is a 3 phase frequency inverter?

Three phase frequency inverter, also named as 3 phase variable frequency drive (VFD), is a motor control with 3 phase input and output that drives motor by changing the frequency and voltage supplied to the motor.

What is the future of a frequency inverter?

Nowadays fuel cells powered by solar and wind energy are emerging as a latecomer to the market with their low prices. The most important feature of this power generation equipment is the capacity small and decentralized, the future of the frequency inverter to adapt to such new energy sources, both high efficiency and low consumption.

What RPM is a VFD?

gives relative responses and other characteristics of major VFD types. About 6 Hz, which is 180 rpm for a 4-pole motor (1750 rpm base speed). 0 rpm. Torque capability of decreases at half or one-quarter of base speed. Full torque at 0 speed, if motor has sufficient cooling capability.
