

SolarMax Energy Systems

Full tile and full label outdoor solar integrated machine

Overview

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

What is a solar roof tile?

The solar roof tile – for a modern roof that protects, generates electricity and impresses with its simple elegance. Meyer Burger Tile combines high-quality aesthetics with innovative solar energy. Invisibly integrated, the technology remains concealed while the roof shines in perfect beauty.

What is a high-performance solar roof tile?

The feather-light, high-performance solar roof tile with its elegant design can be combined with numerous roof tiles from different manufacturers, allowing it to be laid in rows or offset. Energy that fits in the roof. Why mount solar modules on high-quality roof tiles when the solar cells can be integrated directly into the tile?

.

What are SunTegra® solar tiles?

SunTegra® Solar Tiles are integrated solar tiles that provide a durable roofing material and a low-profile, high-performance solar system in one.

What are hybrid solar tiles?

Hybrid solar tiles are roofing shingles that produce solar energy and mix solar and non-solar tiles to produce a roof that both produces energy and protects against the weather. For a neat and seamless look, hybrid solar tiles are made to fit the profile of flat concrete roofing tiles.

How do solar tiles work?

Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof. Photovoltaic cells in solar tiles turn sunlight into direct current (DC) energy.

Full tile and full label outdoor solar integrated machine

Integrated solar PV and piezoelectric based torched fly ash tiles ...

The energy harvesting tile manufactured for this study has Municipal Solid Waste Torched Fly Ash, which is a thermal comforting material with less environmental impact.
