We are committed to expanding the EV charging infrastructure around Georgia with our growing list of fast-charging locations. There are over 1300 chargers and 3400 charging ports available in the state today.* *Source: Drive Electric Georgia.

What's new in Georgia Power charging?

A change in Georgia laws now allow energy dispensed by chargers to be priced based on kilowatt-hour (kWh) usage versus time-based usage. Georgia Power transitioned to kWh pricing in 2023 so charging prices are now based on what a driver's vehicle actually consumes.

Does Georgia Power charge kWh?

Georgia Power transitioned to kWh pricing in 2023 so charging prices are now based on what a driver's vehicle actually consumes. This is better for

consumers as not all vehicles' batteries can charge at the same speed which creates inequities in a time-based pricing structures. *Pricing is subject to change.

Where can I find a charging station in Georgia?

In addition to Georgia Power's network of charging stations, there are thousands of charging stations throughout Georgia – find them easily at PlugShare. In addition to our own network of charging stations, there are hundreds through PlugShare and ChargePoint.
