

SolarMax Energy Systems

German distributed energy storage management company

Overview

Can German households buy or sell excess electricity?

German households can also buy or sell excess electricity on the company's new trading platform. Founded in Germany in 2009, SENEK develops and produces smart power storage systems and provides storage-based energy storage solutions to private households and small and medium-sized enterprises.

What is Tesla's Energy Storage business?

In Germany, Tesla's energy storage business mainly focuses on the two products Megapack and Powerwall. Megapack is a large energy storage battery; Powerwall is a household energy storage battery that can be used with solar panels to store excess electricity generated during the day and use it at night or during power outages.

What is BYD energy storage?

BYD Energy Storage was established in 2008 and focuses on the technology research, development, promotion and application of energy storage systems and equipment. It has formed a complete industrial chain integrating energy storage product research, development, manufacturing, sales, service and recycling.
