

SolarMax Energy Systems

German emergency energy storage power supply manufacturer

Overview

Who is German power GmbH?

In company alliance with German Power GmbH, we have been developing, producing and selling innovative and high-quality switched-mode power supplies, electrical energy storage systems (EES) and products for increasing energy efficiency for 17 years.

Does Engie Germany offer a battery storage system?

No matter whether central or single battery solution with or without radio transmission – we will find the right solution for your requirements. Our offer includes battery storage with an output of 50 KW to 3 MW. Quick and easy: At ENGIE Deutschland you can also rent UPS systems, battery systems and emergency power units.

Where can I rent an emergency power supply?

Quick and easy: At ENGIE Deutschland you can also rent UPS systems, battery systems and emergency power units. We would be happy to advise you individually on a solution for emergency power supply. Contact us! With our emergency power technology we guarantee an uninterruptible power supply even in an emergency.

What is ENGIE secure power systems?

ENGIE Secure Power Systems combines battery storage and emergency power units and handles construction and maintenance.

Why should you choose Engie in Germany?

ENGIE in Germany supports you in intelligently exploiting the potential for consumption and marketing. Want to learn more about battery storage?

Contact us directly! They are the game changer for the energy transition: Battery energy storage systems (BESS).

Does Engie have a battery storage system?

In the Pfreimd power plant group, ENGIE operates a 12 MW battery storage system as a supplement to the pumped storage power plants, which contribute to a secure energy supply in Germany. Globally, Engie operates 400MW of BESS across many markets, with the goal to build 10GW of BESS by 2030.
