

SolarMax Energy Systems

Ghana Kumasi Photovoltaic Panel Power Generation Project

Overview

Is Kumasi a good place to install solar energy systems?

Kumasi and Ghana as a whole have good potential of solar radiation throughout the year. The abundance of solar energy in Kumasi makes it promising for the installation of solar energy systems. The monthly averaged solar radiation for Kumasi obtained from NASA online data base of solar radiation is given in Figure 1.

Is solar PV a viable solution for peri-urban areas in Ghana?

Hence, solar PV system is technically and economically feasible for electricity and water supply for single households in newly developing high-income peri-urban areas in Ghana and other developing countries with similar socio-economic and climatic conditions.

What is the access to electricity in Ghana?

Although the access to electricity in Ghana was over 87% for urban households and urban water coverage stood at 76% , there are disparities between the urban centres and the newly developing peri-urban areas.

Is a 1 MW photovoltaic grid connected system economically feasible?

In a similar study, Kazem performed techno-economic feasibility analysis of 1 MW photovoltaic grid connected system in Oman and found that the plant produced energy at around US\$0.2258 per kWh. The authors concluded that the PV technology was economically feasible and thus very promising area for investment.

12.8V6Ah

Nominal voltage (V):12.8
Nominal capacity (ah):6
Rated energy (Wh):76.8
Maximum charging voltage (V):14.6
Maximum charging current (a):6
Floating charge voltage (V):13.6-13.8
Maximum continuous discharge current (a):10
Maximum peak discharge current @10 seconds (a):20
Maximum load power (W):100
Discharge cut-off voltage (V):10.8
Charging temperature (°C):0 → 50
Discharge temperature (°C): -20 → +60
Working humidity: <95% R.H (non condensing)
Number of cycles (25 °C, 0.5c, 100%dod): >2000
Cell combination mode: 32700-4s1p
Terminal specification: T2 (6.3mm)
Protection grade: IP65
Overall dimension (mm):90*70*107mm
Reference weight (kg):0.7
Certification: un38.3/msds
