

SolarMax Energy Systems

Greek container photovoltaic panel supplier

Overview

What is a photovoltaic company?

The object of the company is the marketing, storage and promotion of photovoltaic equipment for the construction and installation of Photovoltaic Parks and domestic Photovoltaic installations of any size. We take advantage of the power of the sun in the most effective way!.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

Who is wpd solar Hellas?

wpd Solar Hellas develops, finances, invests and operates photovoltaic projects. Utilizing the group's vast experience within the renewable energy industry over the past two decades, we support PV projects across all phases to ensure that targets are met, and profitability is guaranteed.

How many installers does a solarcontainer need?

At least 3-4 installers and 1 crane operator are needed to put the Solarcontainer into operation within one day. How many households can one Solarcontainer supply with electricity?
