

SolarMax Energy Systems

Home solar thin film power generation system

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

The heating function is optional

Intelligent BMS

Cycle Life: ≥ 6000

Warranty: 10 years

Overview

There are several types of materials used to manufacture thin-film solar cells. In this section, we explain the different types of thin-film solar panels regarding the materials used for the cells.

Home solar thin film power generation system

SUPPORT REAL-TIME ONLINE
MONITORING OF SYSTEM STATUS

Solar Photovoltaic (PV) Systems

If a solar PV system is designed to meet only a fraction of the electricity load, the system will need to be interconnected with the power grid to meet the remainder of the consumer's needs for ...
