How much does a 150W IP67 solar panel cost

Overview

The average price range of 150-watt solar panels varies based on several factors. Most people find that the cost usually falls between $100 and $250. The price can change due to the brand, quality, and where someone buys the panels.How much does a 150 watt solar panel cost in India?

150 watt solar panel price starts from @ Rs.4,500 with Vikram Solar to @ Rs.7,200 with Tata Solar online in India. Here is the list of top branded 150 watt solar panels with their prices. (Inclusive of all taxes) Prices can vary ± 10% to 12% depending on location, promotions and availability, and solar brand.

What is a 150 watt solar panel?

Solar panel of 150 watt has top quality cable and mounting hardware system, it works well even in all weather. Tempered glass construction and high efficiency crystalline solar cells are built in it. With a 150 capacity module, you can enjoy the benefits of a solar system at the cheapest prices. It is affordable and hence most popular.

How many 150 watt solar panels do I Need?

The number of 150 watt solar panels you'll need for your purpose will depend upon how much power you want to draw from them. When the environment is most suitable, the 150 watt solar panel can give 7-7.5 amperes of current and 18-20 volts.

How much does a 6 kW solar system cost?

You'll pay $4,200 to $6,000 to set up a 6 kW system. Concentrated photovoltaic (CPV) panels are $0.80 to $1.10 per watt. While not as well-known as other types of panels, CPV panels are highly efficient and may grow in popularity. A 6 kW solar system would cost $4,800 to $6,600.

How does a 150 watt solar panel work?

A 150 watt solar panel works by setting electrons free from its cell when the sunlight strikes the solar panel. The electrons become free to move and under certain conditions of the panel, they start moving in the same direction. The flow of electrons in a particular direction generates current, particularly direct current.

How much do solar panels cost in India?

In India, the solar price per watt usually lies between Rs.24 to Rs.38 for every single watt. Hence, the rate highly depends on the capacity of the solar panel. Besides, brand, type, variant and your state play a major role in determining the overall price of the panels.
