# How much does it cost to be an agent for an outdoor power supply

## Overview

---

How much does it cost to run electricity to land?

The average cost to run power to land is \$5 to \$25 per linear foot, depending on the distance and whether underground or overhead service. Some companies run new electrical lines up to a certain length free of charge. Bringing electricity to land often involves: Trenching – Trenching costs \$5 to \$12 per foot to dig a trench for electrical conduit.

How much does a power pole cost?

Just for the pole and what ever the electric company will charge to bring their wires to that pole. The meter can be as low as \$40 depending on the style you want. Believe it or not, Amazon has almost every component you would need to erect a power pole, including one style of the pole at fairly reasonable prices.

How much does it cost to get utilities on vacant land?

The average cost to get utilities on vacant land is \$9,000 to \$34,500+. The cost to run electric from the road to the house is \$2,500 to \$12,500 or \$5 to \$25 per linear foot. The cost to install a water well and septic system is \$6,000 to \$20,000. Get free estimates from utility contractors near you.

Should you bring electricity to your property?

Bringing electricity to your property is a significant step that enhances its functionality and value. Understanding the key costs involved in this process can help you plan your budget and avoid unexpected expenses.

How much does it cost to install a power meter?

Power company – The utility company installs the meter and completes the connection. Utility poles – Utility pole installation costs \$1,200 to \$5,600 per pole to extend power lines to a rural or remote property. Utility poles span about 125' from pole to pole in cities and about 300' in rural areas.

Do utility companies charge a fee to connect a property?

Utility companies typically charge a fee for connecting your property to their electricity grid. These charges cover the cost of the labor and materials required to extend service to your location.
