# How much does the electricity price of the Irish energy storage power station cost

## Overview

---

How much does electricity cost in Ireland?

In September 2025, the average price of electricity in Ireland per unit is 34.63c per kWh. This is based on a standard, 24hr urban rate comparing all providers with VAT included. Community Power has the cheapest unit rate per kWh at 28.80c including VAT. The average estimated electricity bill in Ireland is €1,817.12 including VAT and other charges.

Will Ireland need more energy storage?

With a target of 80% renewable electricity from intermittent sources on our grid by 2030, Ireland will require a significant amount of energy storage in the years to come.

Why are electricity costs so high in Ireland?

Our network costs are similar to those of other Member States. The relatively high price of our electricity in Ireland is attributed to our dependence on imported fossil fuels, particularly gas, and the costs of generation and supply, although transmission and distribution costs have increased year on year with greater investment.

Does Ireland still have the most expensive electricity in the EU?

Ireland still has some of the most expensive electricity in the EU, but with the wholesale price of gas expected to fall this year, further price decreases may be on the horizon. When comparing unit prices, pay attention to: Any unit rate discounts or cashback offers for new customers.

What is Ireland doing about energy cost competitiveness?

Ireland has committed to developing metrics of energy cost competitiveness as outlined in the Government's White Paper on Ireland's Transition to a Low Carbon Energy Future 2015-2030. We have developed average electricity and natural gas prices for business and households. These are based on the EU

Electricity and Gas Price Regulation statistics.

Are electricity prices rising in Ireland?

Electricity prices in Ireland had been steadily risen year-on-year over the last 10 years before seeing a large spike in price from 2022 onwards. Below, you can track the evolution of the average price of a kWh of electricity in Ireland since 2015. Source: Trading Economics Figures quoted include relevant taxes and levies applied.

## How much does the electricity price of the Irish energy storage power station cost per watt?

---

### How much does a storage power station cost per watt?

A storage power station typically costs between \$200 to \$800 per watt, depending on several factors including the type of technology employed, ...
