

## SolarMax Energy Systems

# Huawei Marshall Islands Photovoltaic Curtain Wall Project

## Overview

---

What is photovoltaic curtain wall?

Photovoltaic Curtain Wall generates energy in the building implementing solar control by filtering effect, avoiding infrared and UV irradiation to the interior.

What is Huawei fusionsolar smart string energy storage solution (ESS)?

Central to this vision is Huawei's FusionSolar Smart String Energy Storage Solution (ESS). This solution will enable the Red Sea Project to independently meet its power needs. The microgrid solution addresses the intermittent and fluctuating nature of solar and wind power. It ensures the safe and stable operation of renewable energy systems.

Are Huawei inverters good for floating power plants?

Cool solar cells generate noticeably more power than hot ones, and cooling with water instead of air flows is considerably more effective. Huawei inverters are perfectly suited to floating power plants. They have been extensively tested for salt corrosion and for their ability to operate at temperatures ranging from -55 °C to 80 °C.
