

SolarMax Energy Systems

Hungarian quality energy storage battery brand

12.8V 200Ah

Overview

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

What is the Hungarian battery industry platform?

On July 1, 2021, ZKK, in cooperation with the Ministry of Innovation and Technology, established the Hungarian Battery Industry Platform, which brings together more than sixty industrial, academic and public administration institutions. They began preparations to establish the Hungarian Battery Association.

Why is battery storage important in Hungary?

State-of-the-art battery storage has great development potential in both areas all over the world. Hungary's industrial, R&D traditions and capabilities are already outstanding in this field. The development of this sector can make the Hungarian battery industry a strategically important one in the Hungarian economy.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backup as it charts its green energy path. In neighbouring Bulgaria, a massive 124 MW/496 MWh battery energy storage system went live in Lovech earlier this year.

What is Hungary's energy storage goal?

The ministry said that Hungary has set its 2030 energy storage goal at 1 GW in the updated National Energy and Climate Plan. [Home » News » Electricity » Hungary awards EUR 158 million for 440 MW of energy storage.](#)

Why is ZKK important to the Hungarian battery industry?

Hungary's industrial, R&D traditions and capabilities are already outstanding in this field. The development of this sector can make the Hungarian battery industry a strategically important one in the Hungarian economy. Since its establishment, ZKK plays a key role in coordinating the development of the Hungarian battery industry.
