

SolarMax Energy Systems

Install a solar all-in-one machine for home use

Overview

How do I install solar panels?

Mounting the panels at the optimal angle to absorb as much sun as possible is critical. Roof installations are the most common, but stand-alone arrays may do a better job, depending on your location. As a DIY project, a home solar setup is quite involved.

How do I integrate solar power into my home?

Integrating solar power into your home can be as simple as installing a single panel and battery system or as robust as having a full array of panels powering your entire home.

How much does it cost to install your own solar panels?

In contrast, our 8kW DIY solar kits currently range from \$10k-\$15k depending on the components selected. So, after factoring in taxes, shipping, and associated costs, you could save more than \$10,000 on your solar project by installing the system yourself. So what does it take to install your own solar panels?

.

How do I choose a home solar system?

Having a clear understanding of your energy needs will help you determine the configuration and capacity of your home solar system. There are three types of solar systems to choose from: grid-tie, hybrid, and off-grid. Grid-tie solar systems are the type of solar systems chosen by most homeowners.

Should you buy a solar panel for your home?

A good compromise for DIY homeowners is to buy the equipment, mount the panels, and then call in a certified solar technician to connect it all. Smaller projects, such as powering a low-energy workspace that runs laptops or fans,

can benefit from all-in-one kits that require only basic setups and little to no complicated electrical wiring.

How much does a DIY solar system cost?

That 8 kW (8,000-watt) system would put your all-inclusive cost of going solar at \$32,000. In contrast, our 8kW DIY solar kits currently range from \$10k-\$15k depending on the components selected. So, after factoring in taxes, shipping, and associated costs, you could save more than \$10,000 on your solar project by installing the system yourself.
