

## SolarMax Energy Systems

# Inverter produces 48v

## Overview

---

A 48V inverter is a device that converts 48 volts of direct current (DC) into alternating current (AC) power. This type of inverter is commonly used in renewable energy systems, such as solar power setups, and in various applications like electric vehicles and battery storage systems.

50KW modular power converter

**Flexible Configuration**

- Modular Design, Expanding as Required
- Sealed/IGBT, Wall Mounted
- Installed in Parallel for Expansion

**Powerful Function**

- Support PV+ESS
- Grid Support, Equipped with SVC Technology
- On-Grid and Off-Grid Operation

**Reliable Protection**

- Outdoor IP65 Design
- Sulfidation Protection Function Equipped

## 48 Volt Solar Inverter

Specifically, the 48-volt solar inverter is designed for larger solar power systems that need a more robust, reliable source of energy. Whether you want to power up your home, a ...
