

## SolarMax Energy Systems

# Iran photovoltaic curtain wall manufacturer

## Overview

---

What is photovoltaic curtain wall?

Photovoltaic Curtain Wall generates energy in the building implementing solar control by filtering effect, avoiding infrared and UV irradiation to the interior.

What is a photovoltaic value chain?

The photovoltaic value chain includes various stages of solar panel production, such as the extraction and refining of silicon, converting polysilicon into ingots and wafers, designing, manufacturing, and testing solar cells, and finally assembling the cells into photovoltaic modules.

What is a curtain wall?

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels.

What are aluminum curtain walls?

The aluminum systems are not only easy to transport but also straightforward to manufacture. Curtain walls —also known as glass façades and exterior glazing systems —convert previously unused spaces into energy assets, enhancing both aesthetics and functionality.

What is photovoltaic architectural glazing?

Photovoltaic architectural glazing enables buildings to produce extra energy while maintaining their design, functionality, and views. They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment.

## Iran photovoltaic curtain wall manufacturer

### HEAT DISSIPATION

Cold aisle containment,  
making optimal refrigeration effect;

### PV Facade

A typical PV facade system can combine semi-transparent PV Glass for the vision areas, together with fully dark glass for the spandrel. This strategy contributes to optimizing the energy yield ...

#### Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 100% Peak Output Power
- 3 MPPT Trackers, 100% DC Input Utilizing
- Max. PV Input Current 15A, Compatible with High Power Modules

#### Intelligent Simple O&M

- IP68 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC A.C Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

#### Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 30ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

### Support any customization
