

## SolarMax Energy Systems

# Iraq s new 240-watt solar panels

## Overview

---

Will Iraq introduce solar energy?

ERBIL, Kurdistan Region - Iraq's Prime Minister Mohammed Shia' al-Sudani on Thursday approved plans to introduce solar energy systems into Iraqi households, in a bid to ease the load on the national electricity grid and combat electricity shortages.

What is Iraq's first utility-scale solar power project?

Utility-scale solar power project The solar power plant will be Iraq's first utility-scale solar power project. While the country has several other solar plans in the pipeline, the TotalEnergies project is the first to proceed to the implementation phase.

How much solar power does Iraq have?

According to the International Renewable Energy Agency, Iraq has an installed PV capacity of only 216 MW despite a huge solar potential. No additional solar power has been deployed in the country in the past three years.

Will totalenergies build a solar power plant in Iraq?

French energy major TotalEnergies will build a 1-gigawatt solar power plant in Iraq as part of a cluster of contracts it was awarded in 2021 for an integrated project that entails a total investment of \$27 billion over 30 years.

How much solar energy does Iraq have in 2023?

However, Iraq has a long way to go before it achieves its target. According to the latest statistics by the International Renewable Energy Agency, it had just 1,599 megawatts of renewable energy capacity at the end of 2023. Unleashing Iraq's solar potential.

Will Iraq build a power plant?

In late June, Iraq's national investment commission signed an investment licence with French energy conglomerate, TotalEnergies, to develop a power plant with a capacity of 1,000 megawatts for the south of the country. The plant reportedly would supply clean energy for approximately 350,000 houses.

### ESS

- Efficient Higher Revenue**
  - Max. Efficiency 97.5%
  - Max. PV Input Voltage 600V
  - 150W Peak Output Power
  - 2 MPPT Trackers, 100% DC Input Overvoltage
  - Max. PV Input Current 16A, Compatible with High Power Modules
- Intelligent Simple O&M**
  - IP66 Protection Degree: support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPD: prevent lightning damage
  - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
  - Plug & Play, EPS Switching Under 10ms
  - Compatible with Lead acid and Lithium Batteries
  - Max. 6 units Inverters Parallel
  - AFCD Function (Optional): when an arc fault is detected the inverter immediately stops operation
