Overview

What is 5G & how does it work in Israel?

The fifth generation of cellular networks, 5G, officially launched in Israel on Tuesday. It offers customers faster browsing speeds on their smartphones – if they can connect to it. Following some setbacks over tenders and upgrades, the network officially launched across the country.

How will a 5G network Boost Israel's economy?

We expect that the move will lead to new investments in infrastructure, to the entry of new actors into the field that will lead to the acceleration of the deployment of 5G networks and to the improvement of coverage and reception of the cellular networks all over the country, thereby bolstering and promoting the Israeli economy.

How many Israeli companies are working on 5G?

There are currently over 25 Israeli companies working on 5G related tech, from giants like Intel to small early-stage startups. One of the veterans of the industry in Israel is Zion Hadad, who now heads startup RunEL NGMT.

Who has the best 4G/5G network in Israel in 2025?

Partner and Cellcom have the strongest mobile network and the best 4G/5G coverage in Israel in 2025. Pelephone has a great 5G network in Israel, Hot Mobile has the weakest 4G/5G mobile data network in Israel in 2025.

How many 5G sites are there in Israel?

The first offers 500 gigabytes of Internet surfing for NIS 60 per month for five years. The second offers a terabyte (1,000 GB) for NIS 70 per month for five years. Together, the providers say they have installed 250 5G sites throughout Israel, with more being added regularly.

Will Israel continue to advance the global technological podium?

We will continue, G-d willing, to advance Israel to the forefront of the global technological podium.” The Director General of the Ministry of Communications, Adv. Inbal Mashash, stated: “The new legislation is a significant step in promoting competition in the cellular market and will improve the quality of service for consumers.
